ADVANCING KNOWLEDGE AND PREPARING FOR THE FUTURE

UNDERGRADUATE RESEARCH: The Levine Scholars Program is deeply integrated with the vibrant and innovative research community at Charlotte. Scholars have multiple opportunities to engage in mentored research during their academic careers through the program's unique Research Mentoring Initiative as well as the university's Office of Undergraduate Research. Levine Scholars take advantage of enhanced individual support to present research at local, state, national and even international conferences.

PROFESSIONAL DEVELOPMENT: For Levine Scholars, professional development is woven into their four-year experience. First- and second-year seminars prepare students to navigate their foundational years at college and prepare them for success in their summer experiences, leadership endeavors and civic engagement. SUMMER EXPERIENCES

Each summer offers unique opportunities for scholars to explore their personal values, develop leadership and professional skills and apply their ideas in real-world and global settings. Each scholar can customize their experience to match their academic interests and career goals, equipping them to lead with purpose and impact, stand out when applying to top-tier graduate and professional programs and enter the job market with confidence.

IMPROVING LIVES AND STRENGTHENING COMMUNITIES

Each scholar also has access to an \$8,000 grant to design and lead a project partnering with a local nonprofit to address an unmet community need.
